Henry J. Voss, Director
California Department of Food and Agriculture
and
The Honorable Board of Supervisors
Amador County

In accordance with Section 2279 of the California Food and Agricultural Code I am pleased to present the 1989 Crop and Livestock Report of Agricultural Production in Amador County.

Agriculture continues to be the county's major producing industry with an estimated gross production value for 1990 of \$24,772,347.

This report deals with the gross value of production and does not attempt to reflect net farm income nor cost of production and marketing.

Data used for the preparation of this report has been obtained from producers, processors, government agencies, and others whose cooperation and assistance is sincerely appreciated. In addition, I would also like to extend my appreciation to the staff for the effort in the preparation of this report.

Respectfully submitted,

A handwritten signature in black ink, which appears to read "David A. Thompson". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

David A. Thompson
Agricultural Commissioner
