Support outdoor lighting ordinance

Members of the Planning Commission, I am in full support of the proposed "dark sky" ordinance.
When our family moved to rural Amador County 40 years ago, the stars were so clearly visible in the night sky. Over the years, the sky has become sort of a milky black where we live. One factor is the Rancheria Casino which suffuses quite a widespread glow of light at night.

Downward facing lighting for future construction would lessen the light pollution which affects the natural world as well as our viewing opportunities.
Sincerely, Nancy Moore
