Re: Tiger Creek Regulator Dam – Subsurface Investigation Drilling Program Plan

Dear Mr. Nimick:

This is in response to a letter dated June 29, 2020, from Mr. David Ritzman that submitted the Subsurface Investigation Drilling Program Plan for Tiger Creek Regulator Dam, which is part of the Mokelumne Project, FERC No. 137. We have reviewed the submittal, and PG&E is authorized to perform the proposed drilling plan contingent upon addressing the following comments:

1. In the Temporary Construction Emergency Action Plan (TCEAP), please include the contact information of the following FERC personnel:

   John Onderdonk – Branch Chief  
   Office: (415) 369-3339  
   Mobile: (415) 320-0578

   Vinh Tran – Branch Chief  
   Office: (415) 369-3396  
   Mobile: (415) 918-7156

2. Include a plan to address the effects of the COVID-19 pandemic during drilling operations. At a minimum, the plan should describe safety measures to protect workers, contingency plans to address worker or key responsible employee absences or work delays, and measures that will be taken to demonstrate adherence to the applicable CDC guidance.
You are authorized to proceed with the drilling program, upon receipt of this letter provided you address our comments within 10 days of the date of this letter. We appreciate your continued efforts in this aspect of the Commission’s dam safety program. If you have any questions, please contact Mr. Cheuk Wan at (415) 369-3358.

Sincerely,

[Signature]

Frank L. Blackett, P.E.
Regional Engineer
